

INTRODUCTION

According to **United Nations Environment Programme (UNEP)**, the environment encompasses all living and non-living components that interact with human life and support ecosystems and development.

In Brunei Darussalam

Environmental protection is overseen by the **Department of Environment, Parks and Recreation (JASTRe)**, which regulates environmental quality, pollution control, and environmental awareness initiatives.

WHAT SHOULD WE DO

Our small daily actions can create a positive impact on our environment and beyond.

Choose straw-free drinks to reduce plastic waste.

Unplug chargers and devices after use to save energy.

Go digital or print double-sided when necessary.

Recycle whenever possible to reduce waste and protect the environment.

WHY IT MATTERS?

It protects eco-system and biodiversity.

A healthy environment supports natural systems that are essential for life and sustainability.
